

Alele Museum Aerial Photos Inventory

Revised 2018-06-29 (MAGIS, University of Hawaii at Manoa Library)

These aerials of the Marshall Islands and this inventory were donated on 2017-07-14 to the Maps, Aerial Photography, and GIS (MAGIS) collections at the University of Hawaii at Manoa Library. The images, index maps, and inventory have been kept intact as they were donated; however, files and folder names have been edited to parallel MAGIS's naming conventions. This will make it easier to compare sets of aerials across collections.

There is no simple method of sorting the images to reflect spatially contiguous geographic areas. Sorting by image number comes closest for specific short sequences, but be aware that the best images from different dates, missions/flights, and scales/altitudes may need to be selected to make a "complete" spatially relevant sequence. Consult the index maps for each atoll when available.

Directory entries with the suffix "(Alele)" correspond to this inventory.
