

This is a black and white aerial photograph of a coastal area. A narrow, light-colored strip of land runs vertically through the center of the frame. On this strip, there are two small, dark, irregularly shaped ponds. The land strip is bordered by a dark, textured area on the left, which appears to be water or a marsh, and a lighter, more uniform area on the right, which appears to be a beach or a different type of land. The overall image has a grainy, high-contrast quality typical of older aerial photography. The number '0021' is visible in the top left corner.
